Sai Kanth K

Senior .NET Developer | 11+ Years Experience

kondisaikanth@gmail.com | +91 8143036676 | Hyderabad, India

Professional Summary

Highly accomplished and results-driven Senior .NET Developer with over **11 years** of experience specializing in microservices architecture, cloud optimization, and database performance enhancement. I have a proven track record of delivering substantial improvements, including 50% cost reductions and 60-94% performance enhancements. I'm adept at leading critical projects from inception to successful completion. Seeking a challenging Senior Developer or Tech Lead role where I can leverage my expertise to drive technical innovation and achieve significant business outcomes.

Core Technical Skills & Certifications:

Programming	**:** C#, .NET Core, ASP.NET, Entity Framework, REST API, SQL, Microservices
Cloud	**:** AWS (SQS, SNS, S3, Lambda), Azure (Service Bus and Event Hub)
Databases	**:** SQL Server, PostgreSQL, MySQL
Testing	: NUnit, xUnit, Moq, Unit Testing
Tools	**:** Visual Studio, VS Code, SonarQube, GitHub, TeamCity, Datadog
AI/DevOps	**:** GitHub Copilot, FireBase Studio , CI/CD Pipelines
Core Concepts	**:** Basics of Data Structures and Algorithms(DSA) and System Design
Certifications	**:** Azure AZ900 , AWS Associate Developer , GitHub Copilot Prompt Engineering

Professional Experience:

Senior Support Engineer | Microsoft | Sept 2025 – Present

• Develop an in-depth understanding of Microsoft products and platforms to effectively support solution design, implementation, and optimization.

• Partner closely with stakeholders, including clients, product teams, and operations, to diagnose and resolve complex issues through structured troubleshooting, root-cause analysis, and proactive recommendations, ensuring system reliability and stakeholder confidence.

Senior Associate Projects | Cognizant - UNUM | Jun 2022 – Aug 2025

- Optimized SQL databases achieving **60% query** performance improvement for Unum insurance applications.
- Architected serverless AWS Lambda solutions enhancing scalability for enterprise-scale operations.
- Led automated PII masking library development delivering security project **3 weeks** ahead of schedule.
- Conducted technical interviews for full-stack positions and mentored development teams.

Senior Developer | Infosys - UAL (United Airlines) | Oct 2020 - Jun 2022

- Developed .NET Core microservices for COVID-19 Travel Readiness Center serving millions of passengers.
- Engineered auto-approval process reducing manual processing time by **80%.**
- Optimized critical systems achieving **92%** memory reduction and **94%** response time improvement.
- Implemented AWS SQS/SNS operations with automated job scheduling.

Developer/Team Lead | Infosys - Wheels Inc | Nov 2018 - Oct 2020

- Created automation tools reducing operational costs by **50% across multiple modules**.
- Led database migration projects using Agile methodology with **2-week** early delivery.
- Developed enterprise automation solutions integrated into corporate **Bot Factory**.

Developer | Tech Mahindra - Dow Jones | Jan 2015 - Oct 2018

- Enhanced XML-based compliance systems for global financial institutions.
- Designed SQL Server stored procedures optimizing database performance.
- Supervised junior developers through complete **migration** lifecycle.
- Received Pat on Back Award (**Q1** 2016) for outstanding performance.

Highest Education Qualification:

B.Tech Information Technology | CVR College of Engineering, JNTU-Hyderabad | 2014

Key Achievements:

✓ **50% cost reduction** through automation tools and process optimization

✓ **60-94% performance improvements** in critical system components

✓ **Led security project** delivered 3 weeks ahead of schedule

✓ **Built enterprise automation tools** adopted organization-wide

✓ **10+ years** progressive experience from Developer to Tech Lead
